UTAH

Driver Licenses Identification Cards Driving Privilege Cards

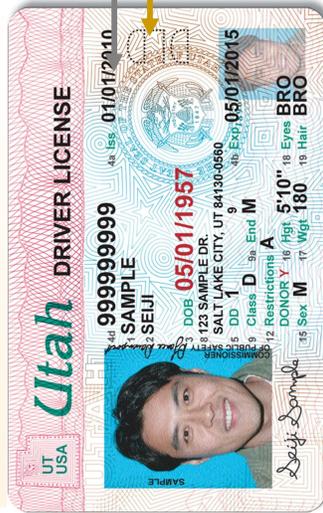

Utah's Certificates

In January of 2010, the Utah Department of Public Safety began issuing several types of license certificates: Driver Licenses and ID cards, Limited-term Licenses and ID cards, and Driving Privilege Cards.

ALL cards include some of the most up-to-date security features available:

- * **Background:** The background of each card will consist of a Guilloche security design and Split Fountain printing (gradual color change.)

- * **Laser Perforation:** All cards have Laser Perforation, spelling the letters "DLD" that is only visible when held to back lighting.

- * **Under 21 designator :** Over the Ghost Portrait in red. Under 19 is in blue. All birthdates are in red.

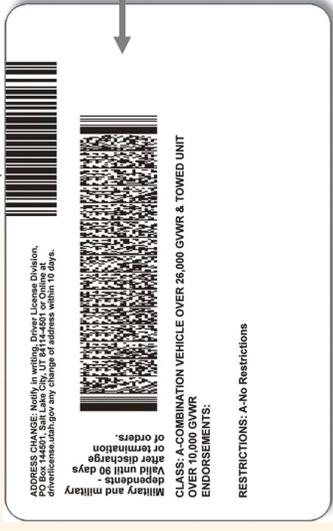

- * **Overlapping data** can be seen over the portrait and a smaller "Ghost" portrait as well.

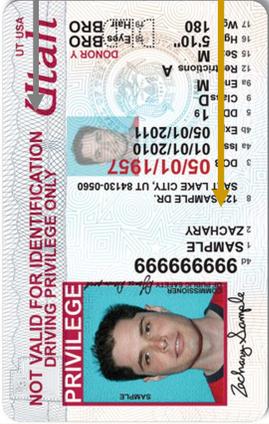

- * An **"Optical Variable Device"** appears on the card surface, forming an outline of the state with the letters "DPS" inset.

- * **Bar codes** contain demographic information that matches the front of the card.

The Driving Privilege Card has 2 additional security features unique to the DPC:

- * **"Not Valid For Identification/Driving Privilege Only"** statement label has been adjusted to maximize mountain ridgeline visibility.

- * **Demographic text** oriented perpendicular to photo
